

*Serving the agricultural, residential, business and community electric power needs of  
Adams, Franklin, Hall, Hamilton, Kearney, Merrick and Phelps Counties*

**PRESS RELEASE**

**January 22, 4:00 P.M.**

**From: LeAnne Doose, Communications Director**

**SOUTHERN POWER DISTRICT UPDATE**

Southern Power District is continuing to work to bring power to Wilcox and Funk through power lines, and will work to make more permanent repairs to facilities.

We would like to remind the public that the facilities that have been destroyed are the property of Southern Power District, and that some of the materials from fallen facilities will be salvaged if possible--by district appointed personnel-- to help keep costs down. We would like to ask the public to be watchful for anyone attempting to salvage materials from our poles, and to contact Southern Power District or the local Sheriff's office.

Additionally, Southern welcomes calls to report fallen poles and other electrical equipment that is posing a safety hazard. Southern can be reached by calling 1-888-484-2470.

Information about restoration progress is also available on a recorded hotline at 1-800-652-9809.
