Southern Power District will be doing maintenance work on Saturday, March 31st that will result in a brief outage for some customers in Hall County. The outage will take place at about 7:00 a.m. and is expected to last only a few minutes. The area to be affected includes the villages of Alda, Wood River, Shelton and surrounding rural areas, particularly to the south of Wood River and east of Shelton.

Customers who experience an outage lasting longer than 15 minutes are encouraged to call Southern at 384-2350.

We apologize for any inconvenience to our customers.
